PROFESSIONAL SUMMARY

Computer Science & Design graduate (CGPA 8.05/10, June 2025) with 1+ year of internship experience building REST APIs, backend services, and authentication/session-management systems in Python. Hands-on with Git, CI/CD (Jenkins, GitHub Actions), Docker, and Linux deployments across 3 internships. Delivered measurable production impact in Agile teams of 8+. Eager to grow into cloud platforms and production service operations

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, Bash, HTML/CSS
- **Backend & APIs:** REST API Design, FastAPI, Flask, Client-Server Architecture, Authentication & Session Management, OOP & SOLID Principles
- **Databases:** MySQL, MSSQL, PostgreSQL, SQLite — Schema Design, Query Optimization
- **DevOps & Cloud:** Git/GitHub, CI/CD (Jenkins, GitHub Actions), Docker, Docker Compose, Kubernetes (basics), AWS EC2 (in progress), Linux Administration
- **Core CS:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Agile/Scrum, Unit Testing & Debugging

INTERNSHIP EXPERIENCE

Associate Software Intern — Utthunga Technologies

Feb 2025 – May 2025 | Bengaluru

- Engineered Python-MSSQL data pipelines with modular OOP design processing records/day, improving data accuracy by 40% for production systems serving 50+ enterprise clients.
- Developed 12 automated Python report templates for the AVEVA industrial reporting system, cutting manual reporting effort by 80% (15+ hours/week saved).
- Performed root-cause analysis and system-level debugging on production pipeline failures, collaborating with 8 developers through Agile sprint planning, standups, and code reviews to deliver bi-weekly releases.

DevOps Intern — Rooman Technologies

Oct 2024 – Feb 2025 | Bengaluru

- Configured end-to-end Jenkins CI/CD pipelines with Docker containerization and Kubernetes orchestration on Linux, cutting deployment time 50% (2 hrs → 45 min) and enabling 3× more frequent releases.
- Maintained 99.9% uptime across 8+ containerized microservices handling concurrent requests by configuring auto-scaling policies and monitoring system logs.
- Wrote and version-controlled Bash automation scripts for zero-downtime deployments and rollback handling, reducing production incidents by 65%.

Python Developer Intern — YBI Foundation

Aug 2024 – Oct 2024 | Remote

- Improved data throughput 35% on record ETL pipelines by profiling bottlenecks and refactoring Python/Pandas code with parallel processing.
- Built 4 real-time analytics dashboards and 15+ Python automation scripts, cutting manual operations 60% across a distributed 3-timezone team.

PROJECTS

FastAPI URL Shortener — FastAPI, PostgreSQL, Docker, GitHub Actions | [Live Demo](#) | [GitHub](#)

- Built and deployed a production-grade REST API with rate limiting, click analytics, and edge-case validation; containerized app + PostgreSQL with Docker Compose, persistent volumes, and environment-based config (PostgreSQL in prod, SQLite locally).
- Configured an automated GitHub Actions CI/CD pipeline (build-test-deploy), verified through container teardown/rebuild; resolved a Starlette TemplateResponse breaking change and a UTF-16 encoding bug via application log tracing.

AI Training Platform — Python, Flask, SQLite, REST API | [Live Demo](#)

- Designed and deployed a full-stack platform implementing user authentication and session management, with RESTful APIs powering a 5-module course structure and automated assessments.

Quiz Master Pro — Python, Flask, SQL, JavaScript | [Live Demo](#)

- Engineered a scalable quiz platform with optimized SQL schemas and database indexing, achieving sub-500ms query performance (60% latency reduction).

EDUCATION

Bachelor of Engineering — Computer Science & Design

K.S. Institute of Technology, Bengaluru | CGPA: 8.05/10 | June 2025

CERTIFICATIONS

- AI DevOps Engineer — Skill India / PMKVY / NASSCOM, Grade A (86%), 480 hrs, NSQF Level 5
- DevOps Training — Golden Certificate, Skill India / Rooman Technologies
- Cloud Computing Essentials — IBM
- Python Programming — YBI Foundation
- Full Stack Web Development — Varcons Technologies
